

For the Design Professional

Protecting the concrete you place this year from next year's winter

- Three location options
- Earn 8 CEUs by attending this class
- Free to attend
- Features both hands-on and classroom learning alongside experienced concrete finishers

LEARN HOW TO SPECIFY
DURABLE EXTERIOR CONCRETE
ALONGSIDE **EXPERIENCED** CONCRETE
PROFESSIONALS

TO REGISTER

Understand the craft.
Improve your specs.
Build it better.

Step out of the office and onto the slab. This special session gives engineers, architects, and specifiers a firsthand look at what certified concrete finishers must know to deliver durable, high-quality work. Learn the practical realities of concrete placement, finishing techniques, curing methods, mix behavior, and jobsite challenges. See how your specifications play out in the field - and how to write them better. Gain valuable insight that bridges design and execution, helping you build stronger relationships with contractors and stronger concrete on every project.

Don't forget your PPE!
